

## Creative Connecting Ideas for families

### The Doctrine of Christ

A couple of fun things to do with your kids is to see who can think of the most “human” things about Jesus. (Ate, drank, slept...)

For older kids have them use their Bibles.

The same goes for making list of the most “divine” attributes of Christ.

(Healing, walk on water, calm storm...)

Play “Race to the Tomb”.

Set up a where you as a family see who is the fastest from one point to another.

Run the race again with an unknown prize at the end.

Talk about how running for the prize was more exciting and connect it with how Peter must have felt as he raced to the truth of the empty tomb.

Most importantly take some time and talk to you kids about Jesus our Savior. Ask them if they have Christ in their heart and pray with them if they would like to receive Him.

Also spend time in prayer with your kids for people who don't know Christ yet, and for the missionaries who sharing about Jesus all over the world.
