

The Origin of Man & Woman

Try supporting your thoughts with Scripture

The Origin of Man

1. Where & what does the Bible teach about the creation of man? (Be specific in listing out the verses)
2. With regards to the origin of man, in your judgment is the Bible clear as to the who, what, why, where?
3. How do you (your family) process the concept of “evolution” as it is being proposed over creationism?
4. How can believers in visible practical ways promote creationism over evolution?
5. Can believers adopt theistic evolution or the belief that God used evolution to create the world?
6. Should the believer help God out by making the days of creation in Genesis Chapter 1 to be longer periods of time involving billions of years?
7. Does the theistic evolution view lessen or make God small in concept?
8. Why do you believe that the world view is so strong on the evolutionary view verses creation?
9. When the 20th century scientist have disproven the evolutionary view, why so some still hold strongly to that which has been proven to be incorrect?
10. What areas are affected in a person’s life with the adoption of the evolutionary view?
11. How can a person make sense of the evolutionary formula: Nothing + chance + enough time = everything?
12. Biogenesis means that life only arises from life; it does not come from nonliving matter. What then is a response to people like Carl Sagan who say, “You must assume by faith that, contrary to the known laws of physics, somehow, it occurred.”
13. What do you believe is the future of a family or a church that holds strongly to the “creationism” belief?

(Lord willing, the following will be addressed next week)

The Distinctiveness of Man

The Nature of Man

The Destiny of Man
